

# ASHAION

## Boiler Water Treatment

### **ASHAION - 11** **ALKALINITY BUILDER**

#### ● PRODUCT DESCRIPTION

ASHAION - 11 is an alkalinity builder used for increasing pH and maintaining the correct alkalinity in boiler water.

#### ● PRODUCT DATA

Appearance	:	Colourless liquid
pH ( 1% soln.)	:	10.0 to 12.0
Flammability	:	Non-flammable

#### ● APPLICATION

Alkalinity control is vital part of any internal boiler water treatment. ASHAION - 11 is useful for neutralising any acid pick up as well as maintenance of correct pH and alkalinity in boiler water.

#### ● DOSAGE AND FEEDING

ASHAION - 11 is fed directly to the feed tank with conventional online dosage pumps. The exact dosage will vary with operating conditions and water characteristics. ASHA RESIN'S engineers shall establish the exact requirement to maintain boiler alkalinity within limits. The treatment levels are normally adjusted as per tests for boiler water alkalinity.

#### ● COMPATIBILITY

ASHAION - 11 is compatible with most used for total internal boiler water treatment programmes.

#### ● HANDLING

Avoid contact with eyes and skin. Keep away from acids. In case of contact with skin wash with plenty of water. Remove contaminated clothing and seek immediate medical attention. In case of contact with eyes, flush with plenty of water and seek immediate medical attention. Wear gloves and goggles wherever appropriate.

#### ● PACKING

ASHAION - 11 is available in 50 kg & 35 kg HDPE Carbouys.
