

ASHABOOST

pH BOOSTER

❖ PRODUCT DESCRIPTION

Ashaboost is a specially formulated alkaline chemical designed to stabilize and adjust the pH of juice during processing. It helps maintain an optimal pH level, improving process control and efficiency in juice clarification and treatment systems. The product is non-corrosive and safe for use in food processing environments.

❖ BENEFITS

Effectively increases and stabilizes pH in juice and process water.
Enhances clarification and reduces scaling potential.
Improves color and quality of juice by maintaining ideal pH range.
Compatible with common processing aids and chemicals.
Non-corrosive and easy to dose.

❖ APPLICATION & DOSAGE

Ashaboost is typically used in concentrations of 50 to 200 ppm, depending on initial juice pH and system requirements. It should be added to the juice clarification tank or dosing system with proper mixing. Laboratory testing is recommended to determine the ideal dosage.

❖ SPECIFICATION

1. Appearance : Clear to light yellow liquid
2. Solubility : Soluble in water
3. pH (1 % soln.) : Alkaline

❖ **HANDLING, STORAGE & PRECAUTIONS**

Ashaboost is mildly alkaline in nature. Avoid contact with skin or eyes. In case of contact, rinse thoroughly with water. Use gloves and eye protection when handling. Store in a cool, dry, and well-ventilated area. Keep container tightly closed and avoid exposure to direct sunlight.

❖ **PACKING**

Ashaboost is available in 50 Kg HDPE carboys or customized packaging on request.
